What's New

- ☑ Updated doors and flu
  (old doors and flus cannot be used)
- ☑ Control flange/frame is now pre-fitted
- ☑ Includes a pre-fitted 240V lead (3pin plug)
- ☑ Optional 12V Gas switch/Red Reset light
- ☑ Upgraded Anode now with stainless steel inner Rod.
- ☑ 700Kpa Pressure relief valve

RELIABLE LONG LASTING WATER HEATERS FOR ALL RVS

FEATURES AT A GLANCE

Longer Life
Heated water attacks all metals, but not porcelain. That's why Suburban uses a porcelain-lined, steel water heater tank with an upgraded anode rod to "absorb" the electrolytic action just like your water heater at home.

Reduced Emissions
An improved burner design integrated with a smaller jet orifice, optimised flu and redesigned door has culminated in reduced emissions and improved efficiency. The result is a greener, cleaner-burning water heater.

More Convenience
All Suburban water heaters are designed for easy installation, operation and maintenance.
The limit switch, reset button and on/off electric element rocker switch are conveniently located in a housing behind the removable outer door. The electric heat element and combination drain plug/anode rod are also located there.

Regulation Compliant
Suburban Water Heaters carry the following approvals:

- ☑ **WaterMark Certification**
- ☑ **Regulatory Compliance Mark (RCM)**
- ☑ **Australia and New Zealand Gas Safety Certification**

SW6DRA Gas HWS
950-00026
(12v Ignition)

SW6DERA Gas/Electric HWS
950-00036
(12v Ignition/ 240v Element)

SW5EA Electric HWS
950-00046
(240v Element Only)

SW4DERA Gas/Electric HWS
950-00056
(12v Ignition/ 240v Element)

Depth	500mm	500mm	450mm	450mm

SUBURBAN ANODE RODS
950-01140

The anode equalizes aggressive wateraction, providing cathodic protection for the tank. It is a very important factor in tank life and should only be removed for inspection, draining or replacement. Suburban Anode rods are made for the 4, 5 and 6 gallon tanks.

* Please be aware that some imitation anode rods can cause damage to your Suburban HWS. Coast recommends using Suburban Anode Rods in Suburban HWS.

All specifications may be subject to change without notice.
